WARNING

DO NOT USE WITH FRONT OR REAR PROJECTION TV

Do not use a front or rear projection television with your Nintendo Entertainment System™ ("NES") and NES games. Your projection television screen may be permanently damaged if video games with stationary scenes or patterns are played on your projection television. Similar damage may occur if you place a video game on hold or pause. If you use your projection television with NES games, Nintendo will not be liable for any damage. This situation is not caused by a defect in the NES or NES games, other fixed or repetitive images may cause similar damage to a projection television. Please contact your TV manufacturer for further information.

READ BEFORE USING YOUR NES

A very small portion of the population may experience epileptic seizures when viewing certain kinds of flashing lights or patterns that are commonly present on our television screen. These people may experience seizures while watching some kinds of television pictures or playing certain video games. Players who have not had any previous seizures may nonetheless have an undetected epileptic condition. We suggest that you consult your physician if you have an epileptic condition or if you experience any of the following symptoms while playing video games: altered vision, muscle twitches, other involuntary movements, loss of awareness of your surroundings, mental confusion and/or convulsions.
Thank you for purchasing the Yoshi™ Game Pak for your Nintendo Entertainment System.

Please read this instruction booklet carefully and follow the correct operating procedures. Keep this instruction booklet and the warranty card for future reference.

HATCH AND MATCH WITH YOSHI!

Yoshi is an action puzzle game starring Mario's dinosaur buddy Yoshi, and other familiar characters like Little Goomba and Blooper. Once again, Mario is going to have to battle away to save Yoshi, who is imprisoned in an egg. Match the egg shell to release an egg. Match the egg shell to release Yoshi and score big points!
HOW TO PLAY

It takes fast finger work to make Mario shuffle the four trays and catch the rain of characters falling from the top of the screen. There are six different characters, including Little Goomba, Blooper and Bloo Buddy. You must match a falling character with another of the same type to make them both disappear. If the characters don’t match up, they will start to stack any high and you don’t want that! If your stacks grow above the top line, the game will be over. Sometimes Yoshie’s egg will split with the other characters. Watch up the top and bottom parts of Yoshie’s egg and you will form an entire egg and clear away all the characters in between the trays. Yoshie will then hatch out of the egg, giving you bonus points.

Using the Controller

HOW TO PLAY SOLO
(1-Player Game)

A TYPE
You can play this game until the characters stack up higher than the top line. As your score gets higher and you make more matches, the speed at which the characters fall increases. If you can get a character to land on one of its own eggs, both will disappear and you will get 5 points. If you match and hatch Yoshi’s egg, you’ll get bonus points! Go for a super score!

B TYPE
You start this game with some characters already piled up! Your goal is to clear all characters from your screen to advance to the next stage! With each stage, the number of characters you must clear increases.

The Characters
There are 8 kinds of characters that fall

Egg Hatching Hints From Yoshi!
In the A Type game, the game level will increase after 40 characters have fallen. When the game advances to the next level, the falling speed of the characters will slow a little bit, but it will gradually speed up again. Make your move to move up through the levels. Good luck!
How to Put the Egg Together

Pieces of Yoshi's egg shell are mixed in with the falling characters. If you can line up the upper and lower halves of the egg in the same column, you'll create a whole egg that will then hatch to reveal 'Yoshi!' If an upper shell half lands on top of a lower shell half, an egg will form and Yosha will hatch from it.

If you sandwich some characters between an upper shell half and a lower shell half, you will get a bonus depending on how many characters you sandwiched.

- Little Yoshi: 8 to 1 characters
- Yoshi: 2 to 4 characters
- Winged Yoshi: 5 to 6 characters
- Star Yoshi: 7 characters

If a lower shell half lands on one of Mario's traps, it will disappear. If a lower shell half lands on top of another lower shell half, both pieces will disappear.
HOW TO PLAY AN OPPONENT
(2-PLAYER GAME)

Two players start the game at the same time. To win, you need to clear all the characters on your trays before your opponent does. You receive an egg each time you clear your screen. However, if your characters pile up over the hot line, you lose and your opponent will get an egg. The first person to receive 3 eggs wins the game.
